INDEX ACTORUM

VOL. XXXIX

	Pag.
BERNHARD LANDTMAN: Mechanically Induced Disturbances in the Heart Action. Observations Made on Heart Catheterization of One Hundred and Forty-Two Children	1
CLAES-GÖRAN HERDENSTAM: Unipolar Lead Electrocardiography in Congenital Heart Disease	33
TORBEN JERSILD: Congenital Spastic Paralysis Treated with Parpanit	51
TORBEN JERSILD and JOHN MUNCK: Procaine Penicillin Therapy in Scarlet Fever	57
ERIK EKHOLM and KALEVI NIEMINEVA: On Prenatal Changes in the Relative Weights of the Human Adrenals, the Thymus and the Thyroid Gland	67
NIILU HALLMAN: On the Ability of Enuretic Children to Hold Urine	87
NIILU HALLMAN, EINO KULONEN, and OLOF FORSANDER: On the Use of Hyaluronidase on Hypodermoclysis in Infants	94
KJELL L. MÖLLER: Premature Infants in a Swedish County Hospital: Frequency and Early Prognosis	102
K. FRANK: Häufigkeit der akuten schweren Tuberkulose bei Kindern mit und ohne BCG-Schutzimpfung	115
GUNNAR NYHUS: A Follow-Up Study of 30 Cases of Lues Congenita Praecox From 2 to 19 Years After Treatment With Acetarsol	122
ANJA HELVE, NILS OKER-BLOM, and RISTO PÄTİÄLÄ: β -Hemolytic Streptococci in the Disease Groups Eczema Infantum-Prurigo	140

KARL-AXEL MELIN: Photic Stimulation as an Aid in Electro- encephalography. A Report of Three Cases	148
ADA MIDDLEHOVEN: Professor Cornelia de Lange In Me- moriem	177
CORNELIA DE LANGE †: On Serious Birth Injuries of the Brain after Normal Delivery à Terme	179
E. WINGE FLENSBORG: On Universal Reactions in Connec- tion with Treatment of Asthmatic Children with Bac- terial Vaccines	192
P. ASTRUP, K. BROCHNER-MORTENSEN, V. FABER, C. HAM- BURGER, N. HARBOE, K. SCHMITH, E. SNORRASON, M. SPRECHLER, and J. VESTERDAL: The Effects of Adre- nocorticotrophic Hormone (ACTH) in a Case of Juve- nile Rheumatoid Arthritis	215
TORSTEN JOHNSSON: Quelque cas de méningite grippale traités par la streptomycine	233
HANS-OLOF MOSSBERG and A. RUNE FRISK: Evaluation of the Effect of d-Amphetamine Sulfate in the Treat- ment of Obesity in Children	243
Professor Adolf Lichtenstein In Memoriam	265
MALJA MIETTINEN: On Thrombosis in Children	267
OSSI PETTAY: Investigations into the Histamine Content of Umbilical Blood	283
HARALD GORMSEN: On Interstitial Plasma Cell Pneumonia in Infants	291
KALEVI NIEMINEVA: On Changes in the Capillary Vascularity of the Hypophysis in the Human Foetus	315
JYRKI KAUHTIO and NIILU HALLMAN: Sodium and Potas- sium Concentration of Erythrocytes and Bromsulfa- lein Liver Function Test in Severe Infantile Gastro- enteritis	328
NIILU HALLMAN and JYRKI KAUHTIO: Thiocyanate Space of Body and Mineral Concentration of Erythrocytes in Severe Infantile Gastroenteritis	347
KALEVI NIEMINEVA: Observations on the Development of the Hypophysial-Portal System	366

SVEN MUNCH-PETERSEN: On the Copper Content in Mother's Milk Before and After Intravenous Copper Administration	378
TORBEN JERSILD and AXEL PERDRUP: Familial Occurrence of Necrosis Adiposa Neonatorum	389
NILS TUNESTAM: Myasthenia Gravis and the Thymus	395
ELIAS BENGSSON: Chest Electrodes for Children	428
CURT STÅHL and ERIK OLSEN: Gram-Negative Staining of Gram-Positive Intestinal Bacteria with Particular Reference to Examinations of Faeces in Infants	471
ERIK EKHOLM and KALEVI NIEMINEVA: On Convulsions in Early Childhood and Their Prognosis. An investigation with follow-up examinations of patients treated for convulsions at the Children's Clinic of Helsinki University	481
AAGE VIDEBAEK: Malignant Tumours in Childhood	502
MARIE R. H. STOPPELMAN: Antihyaluronidase Content of Serum In Children Suffering from Hemolytic Streptococcal Infections, Rheumatic Fever and Other Diseases	510
ARVID WALLGREN: The Undergraduate Teaching of Pediatrics	524

Case Reports:

W. A. MANSCHOT: A Case of Progeronanism (Progeria of Gilford)	158
BENGT J. JONSSON and VIVEKA LAGERCRANTZ: Severe Hypoproteinemia, Probably Caused by Hepatic Damage	165
OLE CHRISTIANSEN: Tetanus and Atelectasis of the Lung, Due to Aspiration of Garden Soil in a Boy of 17 Months	170
H. ENELL, CHR. LINGEN, and K.-A. MELIN: Diplomycin Treatment in a Case of Tuberculous Meningitis	251
STIG SJÖLIN: Hypoplasia of the Mandible as a Cause of Respiratory Difficulties in the Infant	255
L. E. WARFVINGE: Acute Quinidine Poisoning in a 3 Year Old Child (with special reference to the electrocardiographic changes)	262

	Pag.
L. O. NYBERG and C. E. SONCK: Lymphogranuloma Inguinale in Children	433
LARS-ERIK CARLGREN: Two Cases of Thallium Poisoning .	438
S. BROLÉN: Primary Cancer of the Liver in a Boy Aged Two Years	441
INGEMAR BJELKHAGEN: A Case of Infantile Amaurotic Family Idiocy	445
STEN AXTRUP: Exchange Transfusion as Treatment in Poi- soning	541
THEODOR WALTHER: Interstitial Plasma Cell Pneumonia .	545
Proceedings of the Section for Pediatrics and School Hygiene of the Swedish Medical Society	452

SUPPLEMENTA

1950

- 78. OLLI SOMERSALO: Staub Effect in Children. Studies of the blood sugar regulation by means of double and triple glucose tolerance tests 1—126
- 79. OLE WASZ-HÖCKERT: The Tuberculin Reaction in Different Parts of the Skin and the Sensitivity in Rheumatoid Arthritis. With special reference to the technical error in the Mantoux reaction . . . 1—93
